DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims **78-101** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The specification variously describes that the digital signal contains a map, and the map contains information indicating a location of the first and second 8 VSB data in the frame. The newly added language in independent claims **78,85,89, 97**, however, recites that the map contains information indicating a location of "at least first and second differently coded" data. It is not clear which differently coded data the claims are referring to: the 8 VSB data or another different type of data such as the ATSC. Thus, this language renders the claims indefinite.

Allowable Subject Matter

3. Claims **79-84,86-88,90-96, 98-101** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims **78,85,89, and 97** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
